### EXTENSION OF EOI RESPONSE SUBMISSION DATE –CASCADE-MAKE II

1. Refer to Expression of Interest (Eoi) for Make II project "Compact Autonomous Surface Craft All Domain Effects – ASW (CASCADE)" dated 05 Feb 26.
2. Eoi for Make II Project "Compact Autonomous Surface Craft All Domain Effects – ASW (CASCADE)" was uploaded on 06 Feb 26 with a response submission date of 02 Apr 26. However, firms viz. M/s L&T and M/s Nibe Limited have sought an extension owing to complexities in the technology in R&D. Considering that case for design and development of CASCADE is being progressed to enhance indigenous detection capabilities within sub-surface domain, one time extension of one month upto 02 May 26 is recommended.
3. In view of the above, It is requested that the timeline for submission on response to Eoi be extended for one month till 02 May 26. Also requested to update the flash message for **"IN Make II project 'Compact Autonomous Surface Craft All Domain Effects – ASW (CASCADE)' response submission extended to 02 May 26"**.
